About PDFreactor

RealObjects PDFreactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFreactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFreactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFreactor runs on a server, the end-user in general does not need any software other than a PDF viewer.

Notes:
The 'PT' column shows the Post Type, DE for Double Entry or Sch for Schedule,
and the 'Src' column shows the Source of the values as follows:
- P   Posting or Import
- PE   Prior year End value as Start for a StartEnd Bro
- R   Restated Orignal Value - included in 'b' Base Sum and 'd' Restated Amount Sum
- S   Summed
- SE   Sum End calculation for a startend Bro of type SumEnd
- b   Base (no dims) value = sum of the primary dimension values for the Bro
- t   Base (no dims) value for a Tuple
- d   Dimension summing value as per the Dimensions Map
- e   dErived or dEduced value
- i   Intermediate dimension for a posting with multiple dimensions
- r   Restated Orignal Value - included in 'd' Restated Amount Sum

An upper case Source code indicates that this is a Primary entry. In the case of Summing Bros a Primary entry is one which contributes to the Bro's Base total i.e. its no dimensions value. Lower case codes are for information values derived from the primary values.
A prefix of 'm' means that the value has been copied from the Master, which also means that the Bro in question is a Slave Bro.
'i' and 't' codes can appear after a Primary code when a combination is involved.
If different Source codes apply in different years, the column contains a comma separated list for all years, otherwise a single code is shown which applies to all years.
